

# 2023 CYBER DIALOGUE WITH INDUSTRY

February 27, 2023 | Dayton, Ohio

CO-HOSTED BY:

# WELCOME

As we have seen throughout Vladimir Putin's unjust war in Ukraine, the cyber domain can be exploited, often clandestinely, to undermine the safety and security of the United States and our allies. To counter these threats, the United States needs to invest and develop its cyber workforce, capabilities, and defenses. All of us have an important role in this process and we must engage in a thoughtful and deliberate conversation as we look to address these emerging threats. I look forward to our conversation today and appreciate you joining us for the second Cyber Dialogue with Industry.

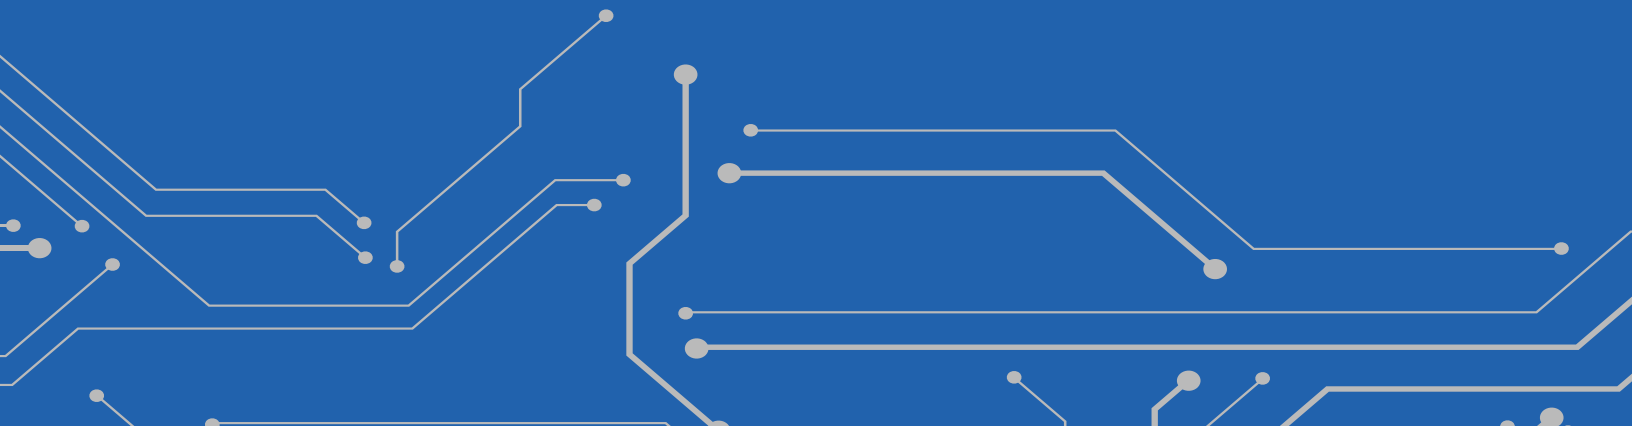

I would like to thank Sinclair College, DaytonDefense and the Dayton Development Coalition for being our hosts. I also want to thank all our panelists and participants for sharing their expertise and knowledge on this critical topic that warrants our complete and immediate attention.

Sincerely,

*Michael R. Turner*

Michael R. Turner  
Chairman of the House Permanent Select Committee on Intelligence

(Agenda continues on page 5)

# ABOUT OUR MANAGED IT & CYBERSECURITY DIVISION

Proudly supporting defense contractors throughout the U.S in meeting their IT and cybersecurity needs.

## MANAGED SERVICES DIVISION

Sawdey's Managed Services Division (MSD) is a full service Managed Service Provider (MSP)/Managed Security Service Provider (MSSP) providing IT and/or cybersecurity services to a variety of different clients (defense/government contractors, municipalities, commercial organizations, etc.). As an MSP/MSSP, we supply our customers with a proactive approach to IT infrastructure, cloud, and cybersecurity management. We handle the critical day-to-day IT functions so that businesses can focus on operations without the looming dread of service interruptions or system downtimes.

## OUR MISSION

We understand the many challenges facing small-to-mid-size companies supporting the Department of Defense. Sawdey is one of the few MSPs/MSSPs with the necessary Cybersecurity Maturity Model Certification (CMMC)/National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171 knowledge to truly prepare defense contractors for compliance. Our focus is on providing our clients with comprehensive solutions that meet their unique business objectives, at a price they can reasonably afford.

## IT & CYBERSECURITY SERVICE OFFERINGS

- Managed IT & Managed Cybersecurity Services
- vCISO & Cybersecurity Consulting
- Risk Assessments
- NIST SP 800-171 Self-Assessments
- CMMC Pre-Assessments
- Network Engineering & Systems Administration
- Equipment and Subscription Reselling
- Cybersecurity Incident Response
- Penetration Testing
- Specific Projects
